

CH BULL

EQUIPMENT SOLUTIONS & ENGINEERED PRODUCTS

www.chbullco.com

- Heat Exchangers
- Radiators

Shell & Tube Heat Exchangers in brass or stainless. Horizontal & vertical core air cooled radiators for liquid & gas cooling.

Plate and spiral heat exchangers in all metals. Full service and technical support on ANY manufacturers' plate heat exchanger.

A Babcock Power Inc. Company

Thermal Engineering International. Industrial Products Div., Team & ASME Code Shell & Tube Heat Exchangers in all metals, Round Tube Radiators.

- Silencers
- Heat Recovery
- Nox Control

Intake and exhaust Silencers for engines, compressors & turbines. Complete exhaust heat recovery systems, catalytic NOx control

- Filters
- Strainers

HAYWARD

Cast and fabricated simplex, duplex and "Y" strainers in all sizes and ratings, automatic self cleaning strainers 2" to 48"+, 1 to 4,000+ GPM.

Air intake filter/silencers, sizes 1/2" to 24" +, pipeline particulate and coalescing filters for air, gas, and liquids. Element recovery services.

- Coils
- Pumps

Anderson-snow steam, water, heating & cooling coils. Replacement coils.

burks pumps

Centrifugal & turbine industrial pumps in bronze, stainless, cast iron and bronze fitted. 1-500 GPM to 150 PSI.

- Systems

Pneumatic conveying systems for solid dense phase and discontinuous dense phase conveying without degrading the material or piping.

CH Bull Co. designs and builds cooling systems and controls for industry, aerospace, defense, hydraulic and food processing applications.

- Actuators

Worm gear, ball screw & electromechanical linear actuators for precision lifting, lowering or leveling loads of 50 pounds to 500 tons.
